

For more than 50 years Le Calette has been known worldwide as one of the most charming corners of the Sicilian coast. Set on a park of over 12,000 sqm, 2 km far from the historic center of Cefalù (UNESCO site), the Boutique Resort follows with its Mediterranean architecture the natural folds of the coast of the Caldura bay from which it takes its name. It offers a panoramic view of crystalline sea, stunning sea stacks and the Presidiana pleasure boat harbour towered over by the Rocca, Cefalù's renowned promontory. The view, from any point you wish to enjoy it, is breathtaking.

In the park there are 53 rooms and suites characterized by refined design, a heated swimming pool and jacuzzi, an intimate spa and a submarine gym. Three are the rocky coves with crystal clear waters (from April to October) together with a wooden solarium in teak with king size sunbeds and a terrace with bar and restaurant (from June to September).

Le Calette offers 1,200 sqm of private beach with fine light sand on the seafront of Cefalù, which is fully equipped with sunbeds and umbrellas and reachable with the shuttle service of the resort (from June to September). A reserved area for boat storage is at the pleasure boat harbour.

The restaurants of Le Calette serve a Mediterranean cuisine, that leads to the discovery of the contemporary Sicilian taste and savours by using the best raw materials that the island's earth and sea can offer. The dishes are combined with labels selected among Italian wineries of excellence.

Tangible metaphor of harmony and beauty, Le Calette ideally links two dimensions: the town of Cefalù with its maze of streets, squares and courtyards of Arab-Norman age on one side, and the sea, the cliff and the ancestral and quiet nature on the other. The ideal place for those who want to combine culture and art, relax and the seaside while living a totalizing experience of Sicilian sensuality.
